SUMMARY

Unitec is responsible for ensuring accurate reporting of research activity, and to this end all research outputs produced by Unitec staff are catalogued centrally by the Research Office and Postgraduate Centre, using Unitec's Research Output Management System (ROMS).

All outputs are recorded as quality assured or non-quality assured in ROMS, however in some instances this information is aggregated for reporting purposes. These research categories approximately conform to the categories utilized by the PBRF.

Unitec experienced significant growth in outputs in 2011 due to the regular PBRF reporting cycle. A small decrease in outputs was expected for 2012 as a result of this as staff develop new long term research plans. The percentage of outputs that are quality assured has increased strongly since 2005 and remains high.

The table below shows the actual number of research outputs submitted and verified for inclusion in the 2012 publication collection.

	Quality Assured	Other Outputs	Totals	Percentage of QA items from Total
Year	Actual	Actual	Actual	Actual
2005	237	543	780	30.4%
2006	233	521	754	30.9%
2007	224	461	685	32.7%
2008	258	499	757	34.1%
2009	310	291	601	51.6%
2010	314	131	445	70.6%
2011	452	205	657	68.8%
2012	355	178	533	66.6%

Quality assured means any output that has been subject to an independent quality assurance process typical for the discipline.

The table below is a comparison across faculties for the past four years.

All Research Outputs	2009	2010	2011	2012
Creative Industries and Business	398	271	342	249
Social and Health Sciences	183	225	250	220
