

Autodata

Autodata is an online tool for workshop technicians to help service, repair and diagnose automotive work. Autodata contains information on thousands of models of cars from more than 50 manufacturers.

The Library subscription to Autodata allows you to use this tool while studying here.

Username & Password to access Autodata

Unitec staff and students will be able to access Autodata link from the Library website (from Automotive Subject Guide or Database A-Z). You will need to use a temporary *username* and *password* to access Autodata.

Find current *usernames* and *passwords* by clicking a padlock icon  next to Autodata link, which will bring you to the [Unitec Library – database access](#) Moodle course. Once you are in the Moodle course, scroll down to find Autodata and link to the latest username list.
