

SafetyHub

SafetyHub is a database on workplace safety training video content prepared by Safetycare, a company set up to provide safety training products and services. SafetyHub has 150 videos (as of June 2024) with duration ranging between 10 to 20 minutes. The videos cover 17 different areas.

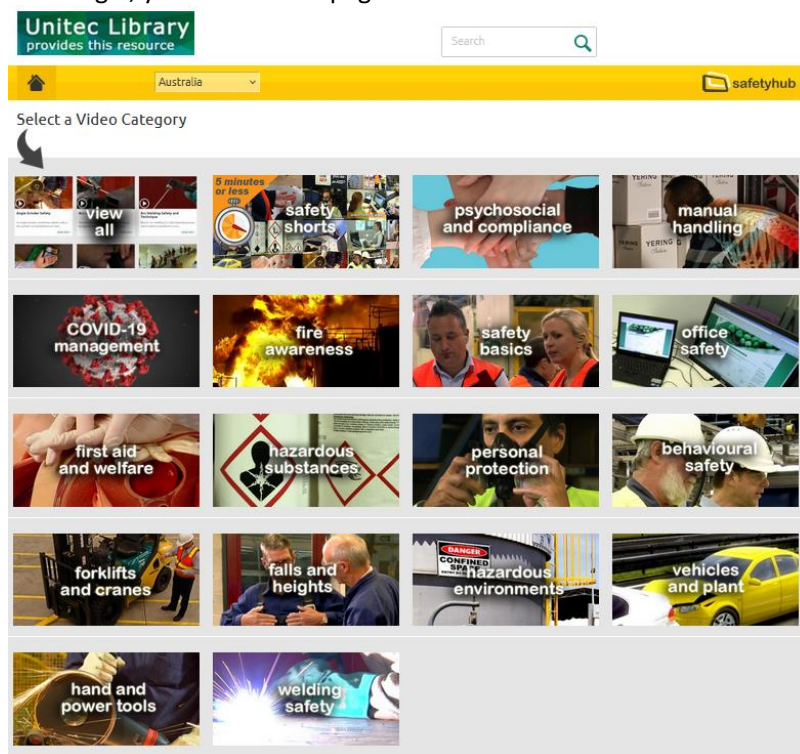

The Unitec Library subscription to SafetyHub allows you to watch the content while studying here.

Access SafetyHub

- Click on SafetyHub link from the Automotive Subject Guide or from Database A-Z.
- Login your Unitec username and password if required.

Watch videos on SafetyHub

- Once login, you will see this page

- Choose on the video you want to view and click the Play button.
- You can search using specific topic such as 'Covid' or 'office' to look for something specific, or browse and navigate the various areas.
