

# Affected Performance Consideration Health Professional Form

- This form is to be completed by a registered health professional, including signature and practice stamp.
- Give the completed form to the student or email them a copy.

## Purpose

The purpose of a student applying for Affected Performance Consideration (APC) is to ensure their academic progress is not unfairly affected by circumstances beyond their immediate control.

The student must consult with a registered health professional normally within five days of the onset of illness, injury or other critical personal circumstances. Critical personal circumstances which have occurred at some time removed from an exam or assessment, should not normally be considered.

Critical personal circumstances are defined as circumstances which have a profound effect on the normal functioning of the student, examples are provided on Unitec's website. The effect will usually be in terms of ability to concentrate, to think clearly or be able to put aside strong emotion for the duration of the assessment or a significant proportion of the study period. Such circumstances may result in an impairment of functioning significant enough to substantially impact on performance in the assessment.

For more information see the [Unitec website Extensions and Affected Performance Consideration \(APC\)](#).
